

'THE SUPREME GIFT'

**“Every child comes with the message
that God is not yet discouraged of man”-Tagore**

I am the best gift God could give to my Parents and to the world!
He molded me in His own image and filled with His spirit-
so that I may walk His ways and make this beautiful common home-
a better place for all His children and the living creatures.
To make my life profound, He blessed me with numerous beautiful ‘Gifts’.
One cannot imagine a life without these Gifts!

Fortunate are we to have a ‘Father’ who in His Wisdom and bounty
provides these and numerous other Gifts throughout our lives.
Often we take these Gifts for granted without realizing their true value
and the great benevolence of the Giver of these ‘Gifts’!
Though we owe so much to each of these fleeting gifts
for their inherent beauty and blessings,
it is to Him, the creator and the source of all the Gifts
we owe our thanksgiving and praises now and forever!

In ‘time’ the Father has given us yet another unique Gift,
different from the Cascade of transient gifts around us-
The Supreme gift of His own Son, born among us in flesh and blood!
Ever He continues to send his Son again and again
to be born among us with a renewed face,
till the entire creation is re-created
and led back to Him unaltered and unabused.

**May this Christmas 2021 and the New Year 2022
see the dawn of a new world order
with zero carbon emission and least climatic change!**

'CASCADE OF GIFTS'

MY MOTHER, MY JOY

On earth or in heaven, mother is my best guide,
protector and intercessor with the Father.

MY FATHER, MY STRENGTH

My 'father', an earthly replica of my 'Father' in heaven,
whom we have not seen except through my 'dad' on earth!

MY TEACHERS, GUIDES AND STUDENTS

Inspite of the latest trends and use of advanced technology
a committed teacher in flesh and blood cannot be replaced!

MY SISTERS

Blessed are they who have sisters
to love and care until the end of their days.

MY BROTHERS

Achievements, celebrations, accolades or ill health,
it is my brothers who make me feel I am not alone.

EARTH, NATURE AND SPACE

Choose to die or to live by mending the holes in ozone layers,
saving the forests and fighting climate changes with zero emission!

DOCTORS AND MESSENGERS OF WELLNESS

Pandemic or epidemic, they sacrifice much
forgetting their families and leisure of life.

SCIENTISTS, DISCOVERERS AND LEADERS

If I go beyond the solar system, or to the depth of the blue,
they are there with Him on a constant discovery mission!

FRIENDS AND THOSE WHO WALK WITH ME

They held me close to their hearts
and walked many distant and extra miles.

SAINTS IN HEAVEN AND SAINTS ON EARTH

We can see around us the footprints of these friends of God,
in their company, you feel that you are walking with God!

THE CHALLENGERS OF LIFE

Often we call the critics and perpetrators of evil as wicked,
but they are the hidden secrets of our growth!
